## Career Objective

Backend-focused software engineer intern with hands-on experience building scalable REST APIs using Node.js and Express. Skilled in designing clean architecture, integrating databases, and working with tools like Docker, message queues, and cloud services. Strong problem-solving abilities with an interest in distributed systems and backend scalability.

## Experience

### Software Engineer Intern

Innova Solutions : May 2025 – Present

- Contributing to the **Uber Freight** project as a backend developer, designing and implementing RESTful APIs using **Java and Spring Boot**.
- Collaborating with cross-functional teams to develop scalable microservices, integrate third-party APIs, and optimize backend performance.
- Writing unit and integration tests to ensure high code quality and maintainability.

## Education

- Bachelor of Engineering in Computer Science and Engineering | Chitkara University, Himachal Pradesh  
CGPA: 9.36 | Expected 2026
- 12th Standard WBBSE | Uluberia High School, West Bengal  
82% | 2021
- 10th Standard WBCHSE | MJ High School, West Bengal  
81% | 2019

## Skills

### Technical Skills:

- Languages: Java, JavaScript, HTML, CSS
- Frameworks & Libraries: React, Tailwind CSS, Spring Boot, Node.js
- Databases: PostgreSQL, MongoDB
- Tools & Technologies: Kafka, Docker, Git, Maven, Postman

## Projects

**Job Portal (Full Stack)** - Developed a feature-rich job portal using React, Node.js, Express.js, and MongoDB, facilitating job seekers and employers in a seamless hiring process. Implemented Clerk authentication for secure user registration, login, and resume management. Designed an intuitive and responsive UI for job search, applications, and employer postings. Integrated MongoDB for efficient storage and retrieval of job listings, user profiles, and resumes, ensuring a smooth user experience.

**Doctor Appointment Booking (MERN Stack)** - Built a full-stack appointment scheduling system using MongoDB, React, and Tailwind CSS, ensuring a smooth user experience. Secured authentication with JWT, enabling safe and efficient patient-doctor interactions.

## Additional

- 300+ DSA Problems Solved (LeetCode, GFG, InterviewBit)
- Strong fundamentals in OOP, OS, DBMS, CN
- Interested in scalable backend systems & cloud infrastructure

**Soft Skills:** Adaptability, Quick Learner with Strong Work Ethic, Time Management
